

I have had the pleasure of hearing Professor Inayath Khan, an eminent musician of Baroda, who has studied the art of Indian Music with a rare devotion and has attained proficiency which is remarkable. His ability to solmize is such as is bound to compel the admiration of his intelligent hearers. He has a beautiful voice and his singing is characterized by ease and spontaneity which will please all. I have much pleasure in bearing my testimony to his abilities as a singer of a high order.
